Objective

To leverage my extensive knowledge, offer leadership, guidance, innovative problem-solving skills, and a passion for technology in order to develop and implement high-quality software solutions. This contribution aims to drive the organization's success.

Skills

- PHP (Laraval, Codeigniter)
- NodeJs
- Mysql
- MongoDB
- HTML
- JavaScript
- Css
- Redis
- Kafka Stramer
- Git

Experience

- **Kooz Advisors And Technologies** Apr-2022 - Present
Technical Lead
Spearheaded the planning, scheduling, and delegation of daily tasks to ensure optimal utilization of team resources.
Demonstrated strong leadership by training, mentoring, and motivating team members, resulting in improved performance and job satisfaction.
Proactively identified potential risks and formulated effective contingency plans, leading to timely resolution and minimal disruptions.
Conducted thorough analysis of existing operational processes, identified areas for improvement, and facilitated training sessions and meetings to implement enhancements.
Fostered a culture of transparency within the team, effectively communicating challenges, failures, and successes to build a cohesive and motivated workforce.
Collaborated closely with cross-functional teams to analyze users' needs and translate them into practical applications that met or exceeded expectations.
Provided supervision for system modifications, ensuring seamless integration of new features and technologies.
Played a critical role in troubleshooting technical problems, offering innovative solutions and collaborating with team members to ensure timely resolution.
Successfully managed critical situations in live environments through quick thinking and effective problem-solving.
- **Osiz Technologies Private Limited** Oct-2020 - Mar-2022
Senior Program Analyst
Leveraged advanced analytical techniques to derive key insights from unstructured data sources, contributing to data-driven decision-making processes.
Rigorously validated and assured the accuracy of data results through meticulous quality assurance checks, maintaining data integrity and reliability.
Demonstrated strong analytical and problem-solving skills by addressing diverse program challenges, ensuring seamless program execution and optimal outcomes.
Reviewed and assessed the risk and feasibility of program implementation plans, providing valuable insights that guided project direction and decision-making.
- **Motiffmedia** May-2015 - Nov-2019
Senior Developer
JUNIOR DEVELOPER
Played a pivotal role as a Junior Developer, supporting the development manager across various aspects,

including attending company development meetings and contributing to strategic decisions.
Actively participated in learning the codebase, honing coding skills, and ensuring the integrity of written code through rigorous maintenance.
Collaborated with team members to identify, prioritize, and address minor bug fixes, optimizing software quality and user experience

SENIOR DEVELOPER

Demonstrated leadership as a Senior Developer by creating wireframes to guide layout decisions, ensuring user-friendly and visually appealing interfaces.
Monitored and evaluated the technical performance of internal systems, proactively identifying opportunities for enhancement and optimization.
Prepared comprehensive reports on programming project specifications, activities, and status, providing valuable insights for project management and stakeholders.
Led and supervised junior web developers, providing guidance and mentorship to support their professional growth and development.
Conducted training sessions to empower staff with the necessary skills to effectively use software tools, contributing to increased productivity and efficiency.

Education

- **Ayya Nadar Janaki Ammal College** 2012-2015
Bachelor of Computer Application
72.5%
- **Muslim hr.sec school** 2012
12th
74.66%
- **N.P.A.S.P.R.Rathna Vilas hr.sec school** 2010
10th
83.2%

Projects

- **KoinBX(koinbazar) - previous project**
"Koinbazar is a global cryptocurrency exchange, ranking as one of the top exchanges in both India and worldwide."

Language

PHP and MySQL (initial stage)
Update to
NodeJs
React Js
MySQL,
MongoDb

Accomplishments

Scaled the platform from zero users to over 300,000 users, achieving a rapid growth rate and establishing a prominent presence in the cryptocurrency exchange domain.
Oversaw user interface enhancements to improve user experience, resulting in an application that is both user-friendly and technically robust.
Successfully stabilized the platform, tackling live user challenges and ensuring its reliability amidst demanding market conditions.
Implemented innovative solutions to address scalability concerns, allowing the platform to handle increased user load seamlessly.

Roles

As the driving force behind the project, I took charge of the initial implementation from scratch, establishing the technical foundation for the platform.
Currently serving as the Technical Lead, responsible for managing the tech team and guiding the project's continued growth.
Expertly handling critical situations in live environments, showcasing the ability to make quick decisions and resolve issues effectively.
